

Hélène is a great language teacher. My sisters and I were able to study French and make a progress in only a few weeks. We started as beginners and only knew few words in French, but after our lessons with Hélène we were able to communicate in French and we still remember what we learned. Hélène is very professional and has a fun and exciting way of teaching that always made us want to learn more. The lessons were in French but they were explained to us in English, which made it easier and clear for us. She was especially helpful in teaching us the correct pronunciations of French words. We will always come back to Hélène when we want to learn French or any other language.
