

Nowadays it is really important to speak other languages. That was my goal when I arrived to France. I was looking for a teacher who would provide me the best french lessons and I did find her. H el ene is an outstanding teacher with friendly attitude, very helpfull. I am polish so the course was provided in english, as she is a teacher of english as well. She easily managed to give me the lessons with smile. After 1.5 month I am able to understand, write, read and have a conversation in french on the basic level. I am really happy that I met H el ene on my way. I really recommend her for someone who wants to enjoy the language course, broaden horizons and of course learn a lot.
